NAEBA 2017 March Mingle Benefit Semen Auction

Reg #: C5784

Lot A 2 Straws: AGPE 622A Caliber

Consignor: Glen Park Elk Ranch

Barry Chernuka Calmar, AB 780-725-2102

Sire: Longitude AGPE 134N Dam: AGPE 430X (Levi)

Caliber is an exciting young bull and an outcross for most. At 2 years old he scored 407" green and at 3 he was 513" green" (all unofficial). Yes, it's a big number for us to swallow, so we had his antlers rescored by Les Steem, and he was only 1/8th off my score. Caliber's genetics have been limited. Only 12 straws were used on the cows outside my herd for the 2016 year at 70% conception that is 8 calves maybe, 4 male and 4 female?

Conveniently enough the majority of these 12 straws were purchased by one buyer and we thank them for the confidence in our breeding program and for the support. 2017 will be another exciting year on the farm watching these young bulls grow, don't miss this BIG opportunity to get some Caliber into your cows this fall. Raise the Caliber of your herd today! Contact us for bred cows or pre-book your 2017 calves.

Semen is stored at Livestock Reproductive Technologies and Hawkeye Breeders. Semen available in the U.S. and Canada for the 2017 breeding season.

Reg #: C5819

Lot N 2 Straws: Garmadon 687B

Consignor: Glen Park Elk Ranch

Barry Chernuka Calmar, AB 780-725-2102

Sire: X-RAY Dam: AGPE 448X (Levi 501)

Here is an opportunity for the typical fans from our up and coming sire. Glen Park has been using some bigger non-typicals and wanted to maintain some style and not venture to far away from the typical look. We saw that X-Ray would fill that void. Garmadon scored 355" (unofficial) at two. With a clean typical frame like this, his sons will be in demand by the preserves. Along with his production and style comes a strong line of pedigree. His sire is X-Ray (532" SCI master measured, NAEBA unofficial) out of a Levi dam (Levi 575" green), and the Grand Dam is by Prospect (Prospect 568" Green) (all unofficial). Three generations of sires well over 500. For those looking for an interesting typical bull with background sires in the high 500's, here it is.

Semen is stored at Livestock Reproductive Technologies and is available in Canada and is U.S. exportable. Semen is available in Canada for the 2017 breeding season.

Reg #: A39421

Lot O 2 Straws: Splendor's Ray 071X

Consignor: Splendor Ridge Elk Farm

Lance & Brenda Hartkopf Howard Lake, MN 320-543-3664

Sire: X-RAY Dam: SPR 708T (Clearstone Stalwart)

Splendor's Ray is an X-Ray son who carries the great look and style of his sire. While not a typical style bull, he has long tines, and a clean, symmetrical look with a 7x7 mainframe.

Farm scored at 485" SCI at six, unofficial. His sons are showing not only great tine length, but also good velvet weights. Splendor's Ray has a big stylish body and a calm disposition.

Semen is available in the U.S. for the 2017 season.

100% of the proceeds of this lot will be donated to the American Elk Products Foundation.
