

UNHAPPY WITH VELVET PRICES?

Consider processing your velvet into Elk Velvet Capsules...

1 lb. of green elk antler yields approximately 7 bottles
(60 ct. 250 mg.) of elk capsules

EXAMPLE: Estimated cost of drying, encapsulating and
freight per bottle = \$10.00 (\$70.00 for 7 bottles)

Selling 7 bottles @ \$25.00 per bottle = \$175.00

\$105.00 = profit per pound of green velvet
